G2A

Keeps Global Marketplace Protected

Goals

- As it transitioned to an agile, microservices-based architecture, G2A needed to ensure its global e-commerce platform, back-office systems, and everything in between are always protected against cyberattack

G2A.com

Industry: Retail

Services: Founded in 2010, G2A has grown to become one of the world's biggest digital gaming marketplaces, where over 25 million users browse tens of thousands of products from hundreds of thousands of sellers internationally

Employees: 600+

Solution: Qualys Cloud Platform, Qualys Vulnerability Management, Qualys Container Security

SUCCESS FACTORS

Tackled emerging threats

Gained near-real-time insights

Accelerated vital remediation work

Ensured tight security for microservices

92%

Reduced severity level five vulnerabilities

> **The fact that Qualys Cloud Agents are so lightweight is a big advantage,** as it means we get detailed data on vulnerabilities without any detectable reduction in end-user application performance.

Dominika Dzierga
Security Specialist

Why Qualys?

- Gather rich, accurate data on vulnerabilities across its entire IT landscape
- Ensuring tight security for microservices
- Access detailed reports 24/7
- Detailed data on vulnerabilities without any detectable reduction in end-user application performance
